ACCESSORIES

Complement your
Porcelain paving
with our wide range
of accessories

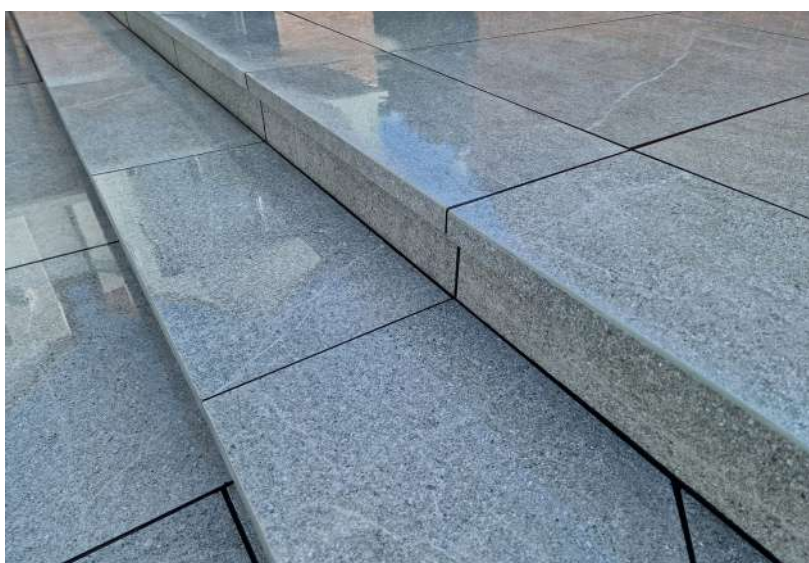

Pedestal System

Perfect for raised floors and balconies

Overlay existing areas quickly and simply

The system simplifies the tile-laying process, allowing for millimetre adjustments.

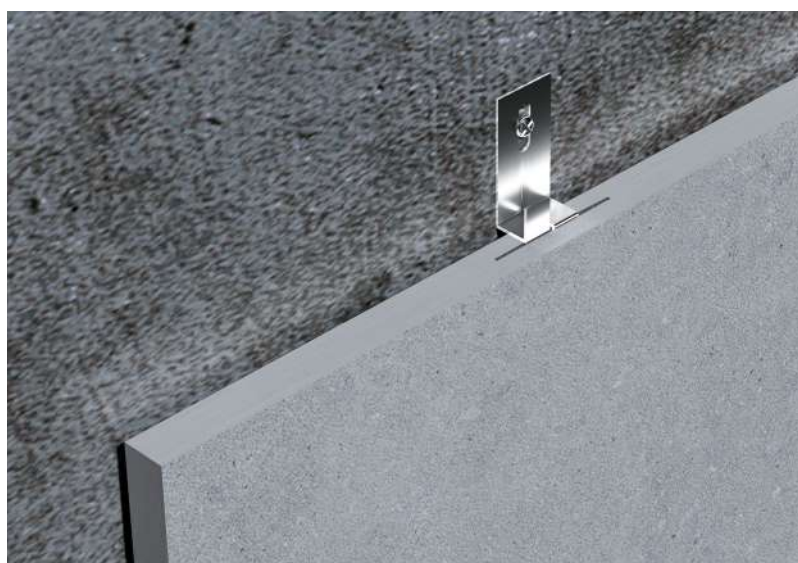

The height of the floor can be adjusted without lifting up the tiles, just by turning the central column. The system simplifies the tile-laying process, allowing for millimetre adjustments with no need for jointing.

Step Units

Perfect for connecting flat areas of paving to different levels.

A simple and effective solution for creating seamless edges and steps in your outdoor space

Clip-based Fastening System

Perfect for laying porcelain paving slabs vertically. Visible and Invisible systems available.

Clip-based fastening systems guarantee long-lasting tile-cladding on façades, preventing the risk of loosened tiles over the course of time if the adhesive's bonding capacity is weakened through permanent exposure to the elements.

COMPOSITE DECKING

DriftDek

Modern outdoor decking with wood grain texture. Perfect for enhancing outdoor spaces.

- Affordable flexibility
- BSI Accredited

TTH
Tippers TOOL HIRE

1000's of tools and machines for hire

Example above

**Water bed porcelain table saw,
ideal for the perfect cut**

A 300mm diameter blade ensures a professional clean-cut edge. Tilting motor assembly for bevel cuts – perfect for steps and walling

Do

- Lay paving slabs on a full bed of mortar
- Use reputable specialists to install your patio
- Check all packs have the same batch codes
- Use Slurry Primer if laying on a sand and cement wet bed
- Always use the correct cutting equipment with a blade suitable for porcelain
- Always use a good quality grout or jointing compound that is non-porous

Don't

- Don't butt joint porcelain paving.
Always use a minimum 4mm joint width
- Don't half bond porcelain tiles over 600mm long. We recommend maximum one third/ two thirds bond
- Attempt to lay your paving without being sure of the process
- Don't let grout set on the surface of your porcelain, as it will be very difficult to remove later

Do

- Visit your local branch to view the paving, as the colours in our brochures are only as accurate as the printing process allows. Go to tippers.com to find your nearest branch
- Use reputable specialists to install your patio
- Use Slurry Primer on natural stone to help the paving adhere to the bedding mix
- Use appropriate paving for its use i.e paving for gardens or driveways
- Always inspect the paving before installation.
- When using multiple packs of paving, randomly select slabs from each pack to give an even mix of colour shades for your project
- Use quality brands of cleaners on your paving and always follow the instructions in full
- Always use good quality cutting tools on your paving to avoid chipping and breakages
- Always lay paving to the correct falls to avoid water pooling on the paving
- Always use a full bed of mortar under your paving, with no voids
- If using sealers, please follow the instructions in full and use quality brands

Don't

- Don't choose paving from a small sample only. It is best viewed at a branch to show the colour variation
- Don't attempt to lay paving without being sure of the process
- Don't use the spot bedding method under your paving
- Don't clean your paving with acid based cleaners
- Don't butt joint your paving; always use the appropriate joint as advised
- Cut paving without using appropriate dust suppression

Full slab with decorative aggregate border

Avoids cuts, more uniform shape and can also be used as drainage

Drainage – ACO Threshold Drain with corner units

For a high quality, premium finishes. Choice of 4 colour grates to complement your space

Use porcelain step units where possible

Uniformed shape, prevents cutting and bonding. Can also be used as single sided copings for walls, planters etc

Contrasting Decking steps, highlight and contrasting feature

Seamless fitment with invisible clips

EASYJoint Select. New premium jointing compound

Smaller particle size, contemporary colours, suitable for thin joint paving such as Porcelain Paving
